SQWG-3 Milestones

S. Noël

IFE/IUP, University of Bremen, Germany

Milestones – PM3 (KO+10)

- WP2160
  Individual pixel characterization for DBPM characterization
- WP2220
  Investigate/improve dark correction
- WP2250
  Investigate/improve spectral calibration ch 8
- WP2260
  Investigate/improve polarisation determination and correction

- WP3210
  Improve limb cloud flagging
- WP3240
  Tropospheric BrO

Next Milestones (until PM4, KO+13)

- WP2120
  Investigate/improve ESM diffuser solar reference spectra (KO+13)
- WP2130
  Time dependent spectral slit function ch 8 (KO+13)
- WP2140
  Investigate/improve degradation correction (KO+12)
- WP2150
  Investigate/improve polarisation key data (KO+13)
- WP2180
  Absolute radiometric calibration of ASM diffuser (KO+12)
- WP2240
  Investigate/improve spectral calibration ch 6+ (KO+13)
- WP2270
  Investigate/improve pointing (KO+13)
