

Validation of SCIAMACHY level 2 data products from air-borne Multi-axis- DOAS observations

Principle Investigator: Prof. Dr. Ulrich Platt
Institution: Institute of Environmental Physics, University of Heidelberg,
Germany
E-mail address: ulrich.platt@iup.uni-heidelberg.de
Phone / fax: +49 6221 546339 / +49 6221 546405

Co-Investigators:

Prof. Dr. John P. Burrows
Institution: Institute of Environmental Physics, University of Bremen,
Germany
E-mail address: john.burrows@iup.physik.uni-bremen.de
Phone / fax: +49 421 218 4548 / +49 421 218 4555

Dr. Andreas Richter
Institution: Institute of Environmental Physics, University of Bremen,
Germany
E-mail address: Andreas.Richter@iup.physik.uni-bremen.de
Phone / fax: +49 421 218 4474 / +49 421 218 4555

Dr. Thomas Wagner
Institution: Institute of Environmental Physics, University of Heidelberg,
Germany
E-mail address: thomas.wagner@iup.uni-heidelberg.de
Phone / fax: +49 6221 546314 / +49 6221 546405

Heidelberg Falcon Team also:

Dr. Frédéric Finocchi, Klaus-Peter Heue, Dr. Andreas Heck, Dr. Irene Pundt

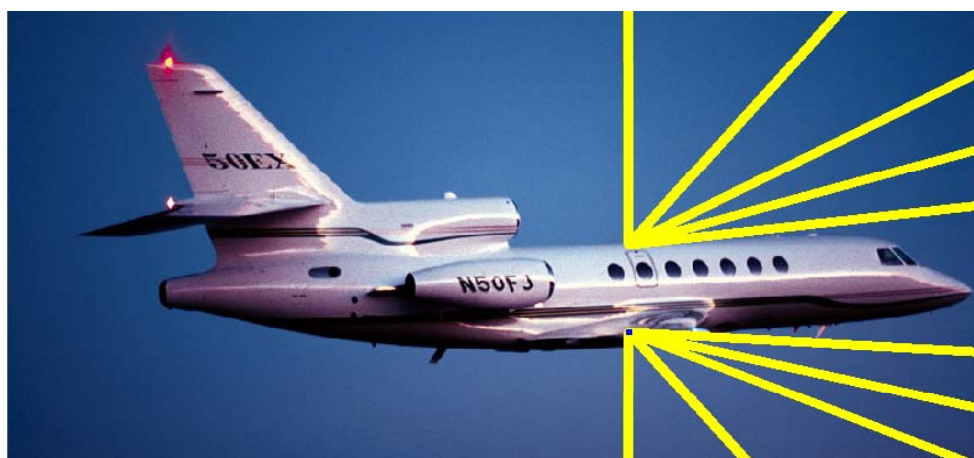

Fig. 1. Viewing geometry of the AMAX-DOAS instruments on board the Falcon aircraft. In addition to zenith and nadir direction several telescopes are mounted with smaller elevation angles.
