

WP 2.2 - Humidity assimilation

- Outer minimization loop.
- New humidity variable.
- Skin temp and emissivity as control variables.
- Visit The Metoffice.
- Emissivity, first guess.
- AMSU-B cloud mask.
- Bias correction scheme.
- AMSU-B into HIRVDA.

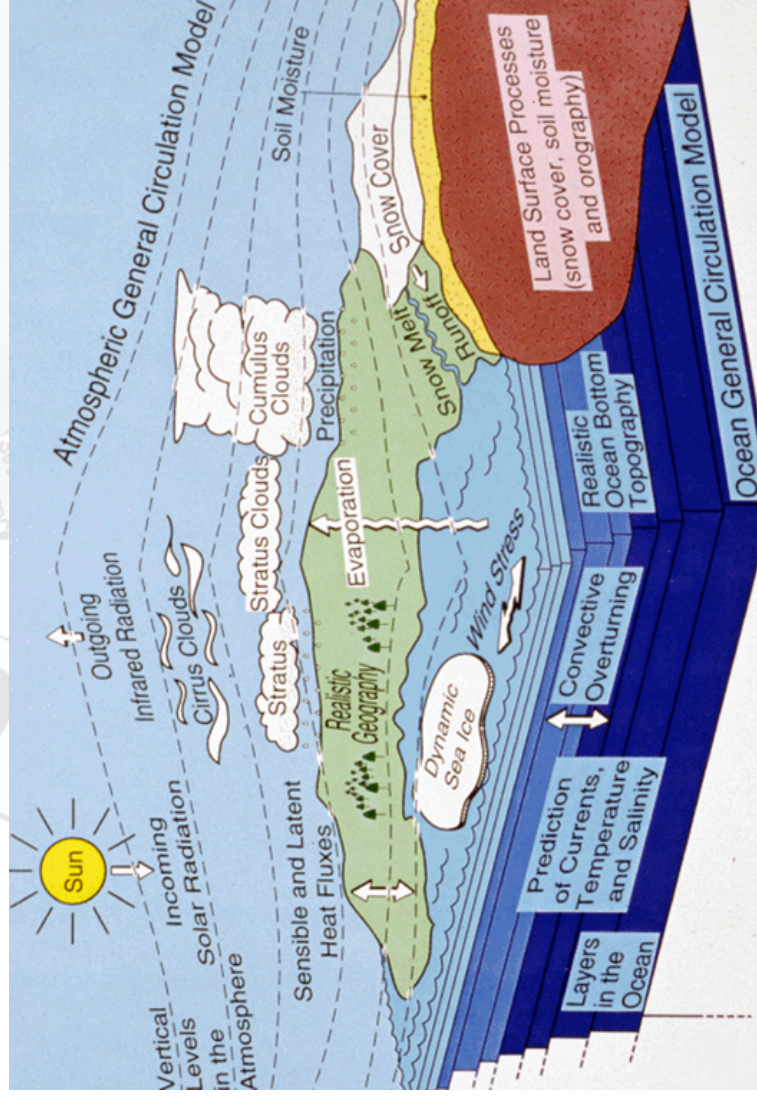

WP 2.2 - Humidity assimilation

- Outer minimization loop.
- New humidity variable.
- Skin temp and emissivity as control variables.
- Visit The Metoffice.
- Emissivity, first guess.
- AMSU-B cloud mask.
- Bias correction scheme.
- AMSU-B into HIRVDA.

WP 2.2 - Surface heat flux

■ HIRLAM snow scheme.

■ Flux formulation for stable conditions.

■ Flux implementation.

■ Validation of new flux and snow.

■ HIRLAM ice scheme.

■ Validation of new ice.
