SCIAMACHY Product handbook maintenance

Bremen, 22.09.2016

Outline

1) Update procedure

2) What needs to be updated by whom?

3) Schedule

1) Update procedure

- **Log in**

  - Get a login for ESA Earth Observation at: https://eo-sso-idp.eo.esa.int/idp/AuthnEngine

  - Inform Gabriele to get editing rights for the handbook copy

- **Handbook copy**

  - Copy of the handbook (**public visible but hard to find**): https://earth.esa.int/web/guest/sciamachy-handbook-version-2

  - **Contains formatting updates compared to the official version** (https://earth.esa.int/web/guest/missions/esa-operational-eo-missions/envisat/instruments/sciamachy-handbook/wiki)

  - It will replace the current version after the update.

  - Advantage: we can "publish" the changes and use complete functionality of the wiki

  - The style of the copy (yellow titles) is different to the official version (blue titles) to better distinguish them and will be adjusted after the update

- **Alternative**

  - If you don't want to get a login, send me the changes **with respect to the copy**

2) What needs to be updated by whom?

- **Content**
  - Change from L1V8/L2V6 to L1V9/L2V7
  - Replace outdated figures and update text where necessary
  - Check links, references, ...

- **Formatting**
  - Most formatting changes are implemented
  - If there are additional formatting changes they can be done in parallel to the content update

- **Who needs to update what?**
  - Basically everybody can implement changes where necessary
  - Questions/comments/changes for List_for_update.pdf?
    - I named one person per chapter, usually the one who probably needs to do most updates in this chapter. They should check for all section where nobody else is listed if
      - it does not need an update? / they will update it themselves? /or ask somebody else to update it?
    - For some of the sections/subsections I listed different people than the one mentioned first for the chapter (they are also named in brackets at the start of each chapter), in this case the first one listed at each (sub)section should check it instead of the person named for the chapter.

3) Schedule

- Original planed to finish the handbook in September 2016

- Planned to finish later to wait for complete baseline

- Can you estimate until when it is possible for you to complete the update?

3) Schedule

- **Original planed to finish the handbook in September 2016**

- **Planned to finish later to wait for complete baseline**

- **Can you estimate until when it is possible for you to complete the update?**

Thank you for your attention!
